

SESSION 5: SHORT TALK SESSION - II

selected from submitted abstracts

08:00-09:00 Registration

09:00-09:15 **Opening remarks**
Majella Lane, Skin Forum, United Kingdom
and Dominique Lunter, University of
Tübingen and member of the focus group
topical dosage forms, Germany

SESSION 1: HOT TOPIC IN SKIN RESEARCH

Plenary lecture

09:15-09:55 **Non-invasive diagnostics for common skin disorders**
Prof. Dr. Johan Engblom, Malmö
University, Sweden

09:55-10:35 **Electrical impedance spectroscopy for assessing the skin barrier**
Prof. Dr. Sebastian Bjorklund, Malmö
University, Sweden

10:35-11:05 **POSTER VIEWING, EXHIBITION & COFFEE BREAK**
kindly sponsored by 

SESSION 2: REGULATORY ISSUES AND TOPICALS

11:05-11:45 **Demonstration of equivalence for locally acting cutaneous products. The EMA guideline vs. the FDA guidances**
Dr. Alfredo García Arieta, Farmacéutico de la Sanidad Nacional en excedencia, Spain

11:45-12:25 **Typical shortcomings in submission according to the new guideline**
Dr. Federico Marighetti, BfArM, Germany

12:25-14:10 **LUNCH, EXHIBITION & POSTER VIEWING**

SESSION 3: SHORT TALK SESSION - I

selected from submitted abstracts

14:10-14:25 **Impact of plant extracts on pro-migratory effects of dermal drug delivery systems in human skin cells in vitro**
Tanja Pflieger, University of Vienna, Austria

14:25-14:40 **When does epidermal turnover matter for dermal absorption? A mechanistic turnover-binding model**
Caitlin Fahrenbruch, University of Surrey, United Kingdom

SESSION 4: INDUSTRIAL PERSPECTIVES OF INNOVATIVE PRODUCT DEVELOPMENT

14:40-15:20 **Comparing test systems for dermal PK/PD: strengths and limitations**
Dr. Stefan Eirefelt, Leo Pharma, Denmark

15:20-16:00 **Active Ingredients Discovery and Evidence-Based Approaches in Modern Cosmetics**
Dr. Ahmed Kamal, Beiersdorf, Germany

16:00-16:15 **Bicontinuous cubic mesophases as dual-purpose matrices: Hapten Delivery and Skin Surface Metabolite collection during patch testing**
Stella Prastitou, Malmö University, Sweden

16:15-16:30 **Non-invasive assessment of skin barrier function after skin care treatment of xerotic feet in persons with diabetes**
Hanna Bjure (Ivarsson), Malmö University, Sweden

16:30-18:00 **WELCOME RECEPTION**
poster viewing and exhibition with wine & snacks

from 18:45 **SOCIAL EVENT/DINNER****
(to be booked separately, includes activity, buffet, tap water, two beverages)
The evening starts with a traditional Swedish Midsummer activity, where guests create their own flower crowns with guidance from professional floral designers. This is followed by a relaxed outdoor dinner at Hyllan, featuring a grill-style hamburger buffet with beef and vegetarian options, sides, salads, and sauces.

* Social event/dinner programme on 23 June 2026

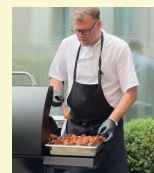

(to be booked separately, includes Swedish activity, Hamburger buffet, tap water, two beverages)

18:45 h Meeting at the Hyllan
(outdoor area first Floor of the hotel)

18:50 h Midsummer wreath making
A traditional Swedish activity where we gather flowers and greenery to create beautiful flower crowns to wear during the Midsummer celebration (outside)

20:00 h Grill Chef – HAMBURGER BUFFET From the grill

22:00 h End of the event (approx.)

SESSION 6: DERMATOLOGICAL UPDATE AND TOPICAL FORMULATIONS

- 09:00-09:40 Evidence makes sense. The challenging route via skin and regulatory barriers to reach authorities and WHO with moisturizers for atopic skin
Asst. Prof. Dr. Marie Lodén, Eviderm Institute AB, Sweden
- 09:40-10:20 Can early application of moisturisers prevent atopic dermatitis?
Prevention of Atopic Dermatitis by using emollients in early life
Prof. MD DSc Alan Irvine, Trinity College Dublin, Ireland
- 10:20-10:45 **COFFEE BREAK, EXHIBITION & POSTER VIEWING**

SESSION 7: SHORT TALK SESSION - III

selected from submitted abstracts

- 10:45-11:00 Understanding how Mutation of Surface-Exposed Amino Acid Residues Modulates Iontophoretic Delivery of Anionic Nanobodies
Tess Vouillamoz, University of Geneva, Switzerland
- 11:00-11:15 Preformulation studies of new skin depigmenting compounds developed under the Safe and Sustainable by Design framework
Sandra Filipa da Silva Mota, Universidade do Porto, Portugal
- 11:15-11:30 Immunomodulatory Assessment of the CAGE Ionic liquid on Human Skin: Linking Inflammatory Signals and Ion Distribution
Saahil Baghel, University of Copenhagen, Denmark
- 11:30-11:45 Study of Free Sphingoid Bases in Human Stratum Corneum and Model Lipid Films
Assoc. Prof. Dr. Andrej Kováčik, Charles University, Czechia

SESSION 8: NANOTECHNOLOGY AND SKIN DELIVERY

- 11:45-12:25 Rethinking the real added value of nanoparticles in skin delivery
Prof. Dr. Sara Nicoli, University of Parma, Italy
- 12:25-13:30 **LUNCH, EXHIBITION & POSTER VIEWING**

SESSION 9: SUSTAINABILITY AND SKIN FORMULATION

- 13:30-14:10 Entoingredients: Evidence-Based Potential or Overhyped Trend in Skin Care?
Asst. Prof. Dr. Catarina Pereira-Leite, Universidade Lusófona, Portugal

SESSION 10: SHORT TALK SESSION - IV

selected from submitted abstracts

- 14:10-14:25 Nanocrystals in Transdermal Drug Delivery: Unravelling Size-Dependent Permeation Mechanisms
Dr. Jarmila Zbytovská, University of Chemistry and Technology Prague, Czech Republic
- 14:25-14:40 In vitro permeation of UV filters from oily vehicles across skin-mimicking membranes: impact of receptor sinks conditions
Dr. Christine Safi, Université Le Havre Normandie, France
- 14:40-15:10 **COFFEE BREAK, EXHIBITION & POSTER VIEWING**

SESSION 11: BIOPHYSICAL METHODS AND MODELS

- 15:10-15:50 The corneocyte lipid envelope: from skin barrier biology to in vitro model systems
Prof. Dr. Katarina Vavrova, Charles University, Prague
- 15:50-16:30 Unveiling the impact of formulations and treatments on the organization of the stratum corneum lipid barrier using X-ray diffraction
Dr. Jean Doucet, Novitom, Les Ulis, France
- 16:30-17:00 **AWARD OF STUDENT PRIZES AND CLOSE OF MEETING**
